PROFESSIONAL SUMMARY

Full-Stack Developer focused on building scalable solutions and process optimization. Hands-on experience developing automation scripts (ETL) with Python and modern interactive interfaces using React.js. Also experienced as a technical consultant in data analysis, ensuring integrity and efficiency in complex database entries.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), TypeScript, SQL, PHP.
- **Front-end:** React.js, Bootstrap, HTML5, CSS3, Flet (Python UI).
- **Back-end & Data:** Flask, Node.js, Pandas (Data Analysis), RESTful APIs, Advanced Excel.
- **Databases:** PostgreSQL, SQL Server, MySQL, Supabase.
- **Tools:** Git/GitHub, Docker (Basic), VS Code.

PROFESSIONAL EXPERIENCE

RW SERVICE (UNIMED Fortaleza) | Fortaleza, Brazil *Service Desk Analyst*

- Performed critical maintenance and support for hospital management systems (ERPs: Sabius, MV, RM).
- Resolved complex technical incidents by conducting root cause analysis.
- Provided advanced support and training to users on corporate tools.

PROBANK (Fintech) | Remote / Hybrid *Python Developer*

- Developed automation solutions for the financial sector (ETL pipelines).
- Created control interfaces and dashboards using Flet library.

XTRACHEF | Remote *Data Consultant / Menu Analyst*

- Performed detailed analysis of menu items and menu engineering data.
- Managed data processing and system registration (ERP) based on complex Excel spreadsheets.
- Ensured data integrity during migration between platforms.

FREELANCE PROJECTS & ENTREPRENEURSHIP

Go Green Shop (E-commerce & Brand)

- Development and management of a digital platform for a private label brand.
- Implementation of UI/UX strategies for sales conversion.

Custom Landing Pages (Web Solutions)

- Development of high-conversion personalized landing pages for various business niches.
- Focus on responsive design and performance optimization (SEO/Loading speed).

System Optimization Software (PC Cleaner)

- Development of a Python tool for automated cache clearing and Windows optimization.
- Deployed as a preventive maintenance service product.

EDUCATION

Bachelor of Science in Systems Analysis and Development University of Fortaleza (UNIFOR)

Focus: Software Engineering, Relational Databases, and Web Development.

COURSES & CERTIFICATIONS

- **Python from Zero to Advanced** – Udemy: Automation, Scripting, and Data Manipulation.
- **Pentaho Data Integration (ETL)** – Udemy: Data Integration, Business Intelligence, and Data Warehousing.
- **WhatsApp Automation** – Udemy: Chatbot creation and automated customer service workflows.
- **Professional PenTest (Ethical Hacking)** – Udemy: Penetration testing, offensive security, and vulnerability analysis.
- **PHP Intensive Course** – RocketSeat: Backend development and database integration.
- **Technical English:** Proficiency in reading and writing technical documentation.
